A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.

Applicants' amendment received on December 30, 2003, which amends the specification and claim 12, has been entered.

Applicants' amendment received on February 02, 2004, which amends claim 12, has been entered.

An examiner's amendment to the record appears on the following page. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The amendment corrects two obvious errors in the specification.

The specification has been amended as follows:

In the first sentence of the paragraph beginning at page 14, line 24 (previously amended by applicants' amendment received on December 30, 2003): "platinum-porphiline" has been changed to --platinum-porphine--.

Page 17, line 14: "liquid crystal" has been changed to --luminescence device--.

Art Unit: 1774

Claim 12 is allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose or suggest a luminescence device comprising a pair of electrodes and a luminescence layer disposed between the electrodes wherein the luminescence layer comprises a compound represented by formula (4) as set forth in present claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
